ABSTRACT

A survey of fall enrollment in higher education institutions included 3,073 two-year and four-year public and private colleges and universities and their branches. The questionnaire was a combination of two federally-sponsored surveys which had previously been conducted separately: the "Fall Enrollment and Compliance Report" of the Office of Civil Rights and the "Opening Fall Enrollment" survey of the National Center for Education Statistics. As a result of combining the surveys, enrollment data are provided by ethnic group, major degree field, and enrollment by level of institution by State, and enrollment category (undergraduate and postbaccalaureate). Statistical tables are grouped under the following six major categories: enrollment by level of institutions, by state, by institution, by race/ethnicity, by major degree field, and by major degree field and race/ethnicity. Information on the background of the survey and a sample survey report are appended. (SW)

NATIONAL CENTER FOR EDUCATION STATISTICS

"The purpose of the Center shall be to collect and disseminate statistics and other data related to education in the United States and in other nations. The Center shall . . . collect, collate, and, from time to time, report full and complete statistics on the conditions of education in the United States; conduct and publish reports on specialized analyses of the meaning and significance of such statistics; . . . and review and report on education activities in foreign countries."--Section 406(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1).

Foreword

This report differs in two ways from past publications of the annual fall enrollment survey conducted by the National Center for Education Statistics (NCES). First, it contains a limited amount of racial/ethnic data and enrollment data by field of study which was collected for the Office for Civil Rights (OCR) as a joint NCES and OCR effort to reduce the burden on reporting institutions by combining two agency sponsored surveys into one annual survey.

The second major change is the exclusion of a number of tables that had routinely been included in the past. Although these tables are not included in this report, they are identified along with appropriate instructions to the reader for obtaining them through NCES's Division of Statistical Services (DSS). This change allows NCES to publish those data deemed most useful to the majority of data users in a single report containing both State and institutional data rather than in two separate reports, as has been done in the past.

Persons interested in the complete data file which includes all of the racial/ethnic and field of study data may obtain a computer tape (costing $94 or $120, depending on density) by writing or calling:

Introduction

In recent years, the Office for Civil Rights (OCR) of the Department of Health, Education, and Welfare has been collecting enrollment data biennially for the purpose of enforcing compliance with Federal civil rights regulations.

In order to minimize the burden on reporting institutions, the National Center for Education Statistics (NCES) and OCR agreed to conduct a single fall enrollment survey in 1976 that would satisfy the data requirements of both. Consequently, the two HEW-sponsored surveys of fall enrollment–OCR's biennial Fall Enrollment and Compliance Report (FECR) and the NCES's annual Opening Fall Enrollment (OFE) survey were combined into one questionnaire. NCES served as the data collection agency for this information which forms the basis for this report.

The universe for the survey was the 3,073 2- and 4-year public and private colleges and universities, and their branches, included in NCES' *Education Directory: 1976-77: Colleges and Universities.*

As a result of combining the OCR and NCES surveys, this edition of the report contains, for the first time, enrollment data by ethnic group, major degree field, and enrollment category (undergraduate and postbaccalaureate).

The tables displaying the data in this report are grouped under six major categories.

I. Enrollment by level of institution
II. Enrollment by state
III. Enrollment by institution
IV. Enrollment by race/ethnicity
V. Enrollment by major degree field
VI. Enrollment by major degree field and race/ethnicity

Because of space limitations, some of the tables generated by the survey could not be included in the report. For these tables, only the table titles are published along with appropriate instructions for obtaining copies of the complete tables.

In addition to one institutional listing with summary data, the tables in this report are aggregated by State and by control and level of institution. A number of simple tabulations and graphs present selected enrollment data in the sections which follow.

Background information on the survey population is presented in appendix A, together with questionnaire editing procedures. A reproduction of the survey questionnaire appears in appendix B.

OVERVIEW

The 25 year trend of ever increasing enrollments in the Nation's colleges and universities ended when the 1976 fall enrollment count (11,121,426) represented a 1.5 percent decrease from the previous year (table I). The last time a decrease in enrollment was observed was in 1951, when enrollment decreased 7.8 percent from 1950. Another enrollment trend broken in 1976

was the proportion of total enrollment in public institutions, which decreased from 78.8 to 78.3 percent, while the proportion of enrollments in private institutions increased slightly.

Although the 1976 fall enrollment counts showed a 3.3 percent increase in the number of women enrolled in all institutions of higher education, the substantial decrease (5.5 percent) in the number of men enrolled contributed significantly to the overall decrease in total enrollment. In addition, enrollment of first-time freshmen decreased by a total of 6.5 percent (table IV). Such enrollments were down in all public institutions–7.1 percent in universities, 7.6 percent in other 4-year institutions, and 10.0 percent in 2-year institutions. Only the private universities and other 4-year institutions showed increases in first-time freshmen enrollments (6.5 percent for universities and 4.9 percent for other 4-year institutions).

CONTROL AND LEVEL OF INSTITUTION

The change in the enrollment trend in 1976 was more evident for certain control/level categories of institutions (figure A and table II). Public institutions reported a 2.1 percent decrease in total enrollment (2.1 percent for universities, 1.8 percent for other 4-year schools, and 2.2 percent for 2-year institutions). On the other hand, total enrollment in private institutions increased slightly (0.6 percent), accounted for by the 1.8 percent increase in other 4-year institutions which counteracted the decreases in universities (1.9 percent) and 2-year institutions (0.2 percent).

Although the 1974-75 increase in enrollments in 2-year institutions was much higher than that for the other types of institutions, enrollment in public and private 2-year schools decreased in 1976, 2.2 percent for public and 0.2 percent for private 2-year schools. This overall decrease in 2-year college enrollment is significant because annual enrollments between 1971 and 1975 had increased steadily.

Enrollments also fell substantially in 4-year institutions. Public universities reported an enrollment decline of 2.1 percent while their private counterparts showed a drop of 1.9 percent. Enrollments in public other 4-year institutions also decreased (1.8 percent); however, an equivalent increase was reported (1.8 percent) in private other 4-year institutions. The 1976 enrollment pattern for 4-year institutions is not uncommon. Figure B shows that while enrollments for other 4-year institutions fluctuated between 1971 and 1976, the fluctuations were not of the magnitude experienced by universities. In 1973, enrollments in other 4-year institutions were 3.0 percent higher than they were in 1971 but only 1.7 percent higher than in 1976. For universities, on the other hand, there was an 8.9 percent fluctuation in enrollments between 1971 and 1976.

SEX

Between 1975 and 1976 enrollment of women went up 3.3 percent and down 5.5 percent for men (table I). In the fall of 1976, 52.7 percent of all students enrolled in institutions of higher education were male and 47.3 percent were female. Five years ago the respective percentages were 58.1 and 41.9. Figure C illustrates the steady nature of the change over the 5-year period.

The proportions of men and women in public 2-year and other 4-year colleges in fall 1976 differed only slightly with a mere 2.1 percent more men in 2-year colleges and 0.8 percent more men in other 4-year schools (figure D). For the same types of schools in the private sector, women outnumbered men in 2-year institutions by a mere 0.3 percent, but in other 4-year private schools, men outnumbered women by 3.0 percent. More men than women enrolled in both public and private universities with 8.4 percent more men in public universities and 4.4 percent more men in private universities.

Enrollments for both men and women in public and private 2-year schools were up in 1975, but enrollments for men in 2-year schools decreased 8.5 percent in public and 9.6 percent in private schools in 1976. Similarly, 1976 enrollments for men in both public and private other 4-year institutions showed decreases of 4.8 percent and 1.5 percent, respectively (figure E). For women, 6.0 percent more enrolled in private other 4-year institutions in 1976 than in 1975. Finally, 1976 enrollments for men decreased in both public and private universities, while gains for women enrolling in public and private universities were much lower in 1976 than in 1975.

ATTENDANCE STATUS

Both full- and part-time enrollments were lower in 1976 than in the preceding year. While total enrollment decreased 1.5 percent, the number of full-time students enrolled in all institutions of higher education was down 1.7 percent (table II). Part-time enrollments, which had increased substantially from 1973 to 1975, dropped 1.1 percent from 1975 to 1976. Contributing to the overall decrease in full-time enrollments in all institutions of higher education was the 2.7 percent decrease of full-time students enrolled in public institutions. While full-time enrollments in private institutions showed an increase of 1.1 percent in 1976, the increase was not enough to offset the decrease in full-time en-

rollments in public institutions. The largest rate of decline of full-time enrollments was in 2-year public institutions which went from a 17.1 percent increase in 1975 to 6.1 percent decrease in 1976.

Among public institutions, part-time enrollments were down for each type of institution surveyed with the exception of 2-year schools. Their part-time enrollments were up 10.1 percent over 1975. Public universities showed the greatest decrease for part-time enrollments at 6.8 percent.

The 1976 figures for part-time enrollments in private institutions were more dramatic, particularly the 16.2 percent decrease in 2-year colleges and the 5.8 percent decline in universities. The only private institutions with consistently increasing part-time enrollments from 1973 through 1976 were other 4-year schools. The increase over 1975 was 3.7 percent.

Figure F gives the rates of change in enrollment in all institutions from 1971 to 1976 and shows that men had the only decreases in full- and part-time enrollment in both public and private institutions. In 1976, the number of men enrolled full- and part-time decreased 5.6 percent and 5.2 percent, respectively. This 5.2 percent decrease is particularly noticeable since part-time enrollment for men had steadily increased between 1971 and 1975. The decrease in male full-time enrollment in 1976, though substantial, was not as surprising since it had shown a decline of 1.9 percent in 1972 with only marginal increases for the other years reported.

ENROLLMENT CATEGORY

When total enrollment in all institutions of higher education decreased in 1976, the total number of students classified as undergraduates also decreased 2.2 percent from 1975 (table III). There were also 178,247 fewer graduate students in 1976 than there were in 1975. This figure represents a decline of 14.1 percent. While this decrease appears to be significant, the large difference could be a result of additional undergraduate and postbaccalaureate subcategories for unclassified students on the 1976 survey form. Students reported at the graduate level on the 1974 and 1975 forms might have been reported as "unclassified postbaccalaureate" on the 1976 survey form. The same reporting situation would exist for undergraduates who were reported as unclassified in 1976. To maintain consistency with the 1974 and 1975 enrollment categories, students classified as "unclassified undergraduate" and "unclassified postbaccalaureate" in 1976 were included in the enrollment category labeled "unclassified" in table III. When students were reported by level on the 1976 survey form, a total of 249,296 were listed as "unclassified postbaccalaureate" by the institutions surveyed (table 13). The number of unclassified students continues to expand rapidly although the 1975-76 increase (18.2 percent) was only slightly more than half the 1974-75 increase (34.2 percent) (figure G).

The number of first-professional students enrolled in the Nation's universities and colleges in 1976 was only 0.8 percent higher than in 1975. Enrollments of men decreased 1.2 percent in 1976 after a 1.4 percent decrease in 1975 and a 4.4 percent increase in 1974 (figure H). The greatest increase (5.7 percent) for male first-professional students was in 1972. One year later, the increase was only 1.6 percent. The decline in the

number of men enrolled in first-professional degree programs since 1972 is, to a large degree, the result of large increases in the number of women enrolled.

First-Time Freshmen

Enrollments of first-time freshmen decreased 6.5 percent in 1976 (table IV), compared to decreases of 1.5 percent for all enrollment and 2.2 percent for undergraduate enrollment. One likely explanation for this large decrease lies in the construction of the survey form itself. Two categories were available to institutions for reporting students enrolled in the first year of college in fall 1976. In the first category, institutions were asked to report only the students who were first-time freshmen in fall 1976. In the second category, institutions were asked to report those students who were freshmen in fall 1976 (i.e., had begun their college work prior to fall 1976), but not first-time freshmen. By comparison, in 1974 and 1975 two categories also existed, one for first-time freshmen and the other labeled "lower division undergraduates" (i.e., freshmen and sophomores in bachelor's degree programs and students enrolled in associate degree programs in 2-year colleges). Consequently, any large differences in the data for the first-time freshmen category may be a result of reporting error in either the 1974 and 1975 or the 1976 survey form, particularly among public institutions. For example, in 1974 and 1975 some institutions may have included all freshmen as first-time freshmen since there was no other explicit freshmen category. On the other hand, the difficulty may rest with the 1976 data, that is, some first-time freshmen may have been reported by their institution as "other first-year" on the 1976 form. There is no way to determine how many, if any, of the 1,711,795 other first-year freshmen (table 28) reported on the 1976 survey form belong in the first-time freshmen category.

The large overall decrease in first-time freshmen enrollment is entirely accounted for by the 9.0 percent decrease in such enrollment in public institutions; private institutions actually showed an increase (4.3 percent) in their first-time freshmen enrollments. The largest first-time freshmen decrease reported by public institutions was in 2-year schools (10.0 percent) while the largest increase was in private universities (6.5 percent) (table IV). By sex, the number of first-time freshmen males decreased at a much greater rate–11.7 percent for men compared to 0.8 percent for women. Enrollments of both full- and part-time first-time freshmen also decreased, but at a much faster rate for part-time (8.9 percent) than for full-time enrollments (5.5 percent).

Figure I compares the 1974-75 and 1975-76 changes in first-time freshmen enrollments.

MAJOR FIELD OF STUDY

In 1976, the survey form included 10 categories for major field of study and one category for "all other" fields. These ten categories, selected by the Office for Civil Rights (OCR), were: agriculture and natural resources, architecture and environmental design, biological sciences, business and management, engineering, dentistry, medicine, veterinary medicine, law, and physical sciences. These 10 major fields were not selected on the basis of size but rather were selected by OCR in order to provide information on the potential supply of manpower among the minorities in the 10 selected areas of specialization. The majority of students (76 percent) had fields of study that were not classified into any of the available categories, and thus were grouped under the 'all other' category (figure J). For those whose fields were classified by their institutions, men outnumbered women in every field. In the largest field of business and management, men outnumbered women by 2.0 to 1 (figure K).

In engineering, the second largest category, men outnumbered women by 12.1 to 1. In the fields of dentistry, medicine, and veterinary medicine, enrollments of both sexes in all three fields accounted for less than 1 percent of all college and university students. In these three fields and in law, the ratios of men to women enrolled were 8.0:1, 3.5:1, 2.6:1, and 2.7:1, respectively (figure K).

RACE/ETHNICITY

Six major race/ethnicity categories were used in the survey: non-resident alien, black non-Hispanic, American Indian/Alaskan Native, Asian or Pacific Islander, Hispanic, and white non-Hispanic. Non-Hispanic whites represented the largest group (81.6 percent) (figure L). Of the five remaining categories, non-Hispanic blacks had the largest enrollments (9.3 percent), and American Indians/Alaska Natives the smallest (.7 percent)—smaller than the non-resident alien enrollment. Hispanic enrollments constituted only 4.3 percent of all students. Among black students, more were female than male (5.1 and 4.2 percent, respectively, of all students). Among Hispanics, on the other hand, slightly more males than females were enrolled (2.3 versus 2.0 percent).

ENROLLMENTS FOR THE COMMUNITY COLLEGE OF THE AIR FORCE (CCAF) ARE NOT INCLUDED IN THE 1976 TOTALS, SINCE CCAF DOES NOT OFFER CLASSES ITSELF. STUDENTS TAKING CLASSES THROUGH THIS PROGRAM ARE INCLUDED IN ENROLLMENT COUNTS FOR THE INSTITUTIONS IN WHICH THEY ARE ACTUALLY TAKING CLASSES. HOWEVER, THE 1975 TOTALS ON THIS TABLE DO INCLUDE 19,957 REGISTRANTS AT CCAF. WHEN THIS FIGURE IS REMOVED FROM THE 1975 BASE, THE NET EFFECT IS TO REDUCE THE DROP IN TOTAL ENROLLMENT FROM 1975 TO 1976 FOR ALL INSTITUTIONS FROM 1.5 PERCENT TO 1.3 PERCENT AND FOR 2-YEAR INSTITUTIONS FROM 2.1 PERCENT TO 1.5 PERCENT.

2/ A FIRST-TIME STUDENT IS DEFINED AS A NEW FRESHMAN (IN THE FALL TERM) WHO HAS NEVER PREVIOUSLY BEEN ENROLLED IN AN INSTITUTION OF HIGHER EDUCATION. FIRST-TIME STUDENTS ARE INCLUDED IN THE APPROPRIATE "TOTAL, ALL STUDENTS" COUNTS. DATA FOR FIRST-TIME STUDENTS FOR YEARS PRIOR TO 1966 ARE NOT COMPARABLE SINCE THEY INCLUDE ONLY FIRST-TIME STUDENTS IN PROGRAMS CHIEFLY CREDITABLE TOWARD A BACHELOR'S DEGREE.

1/ THE COUNT OF 11,090,536 REPRESENTS THE TOTAL HEAD COUNT FOR ALL RACES OF STUDENTS ENROLLED IN THE 3,073 INSTITUTIONS OF HIGHER EDUCATION SURVEYED IN FALL 1976. A DIFFERENCE OF 30,490 STUDENTS EXISTS BETWEEN TOTAL HEAD COUNT FOR ALL STUDENTS AND TOTAL HEAD COUNT FOR ALL RACES DUE TO THE FACT THAT A NUMBER OF INSTITUTIONS WERE UNABLE TO IDENTIFY THE RACE OF THE STUDENTS ENROLLED IN THAT INSTITUTION.

Appendix A
Survey Background

NCES' Education Directory, 1976-77: Colleges and Universities[1] was the source for the list of institutions included in the survey on which this report is based.

Institutions of higher education (or the individual branches of multicampus institutions) included in this report are classified as either 2-year or 4-year institutions, with universities as a separate subclassification of the latter. The 4-year institutions are those that offer programs extending at least 4 years beyond high school. They comprise all institutions that grant bachelor's or higher degrees or some recognition equivalent to such degrees: e.g., ecclesiastical recognition in theological institutions. Some 4-year institutions also offer organized occupational programs of less than 4 years that result in an associate degree or some other recognition of completion such as a certificate or diploma. Universities are those institutions that place considerable emphasis on graduate instruction and have at least two professional schools that are not exclusively technological.

The numbers of institutional units in the fall 1976 survey, and for comparison in the fall 1975 survey are shown in the table below. For the convenience of the reader, the questionnaire, instructions, and definitions used in the survey are reproduced in appendix B of this report. Complete data were received for all but 5 of the 3,073 units in the survey, and total enrollment figures for the responding institutional units have been entered in each cell of the questionnaire.

QUESTIONNAIRE EDITING

Each report form filed in this survey was compared with the report form filed by each institutional unit for the comparable 1975 survey. Large differences in enrollment patterns were accepted if reasons for them were readily apparent. If further information was needed, respondents were contacted by letter and/or telephone for verification, revision, or additions to the figures reported. These procedures undoubtedly eliminated the larger reporting errors, but the extent to which small, unrecognized errors may remain is unknown.

For the convenience of the reader as well as for ease in statistical tabulation, totals have not been rounded but are given as they were obtained—by simple addition of the figures for individual institutional units. This does not imply that totals and subtotals are accurate to the last digit. It was believed, however, that the data could be more conveniently used if the many subtotals obtained in the analysis were reported in such a way that they would add exactly to the totals. Also, in view of the care with which the data were compiled by respondents and reviewed by the NCES, it seemed appropriate that the totals reflect the individual reports.

HIGHER EDUCATION GENERAL INFORMATION SURVEY (HEGIS XI)
FALL ENROLLMENT AND COMPLIANCE REPORT OF INSTITUTIONS OF HIGHER EDUCATION, 1976

PLEASE READ INSTRUCTIONS BEFORE COMPLETING THIS FORM.

FORM APPROVED
OMB NO. 51–R0738

1. INSTITUTION CODE NUMBER

2. DUE DATE

Not later than December 15, 1976

NOTICE: This report is mandatory only for those institutions subject to the requirements of Title VI of the Civil Rights Act of 1964 and Title IX of the Education Amendments of 1972. For the other institutions, it is voluntary. See page 2 for further information.

Please supply all the identifying information requested on this page.

When the survey form has been completed, please return it either directly to Department of Health, Education, and Welfare, Education Division, National Center for Education Statistics, ATTN: Room 2164-HEGIS, 400 Maryland Avenue, SW., Washington, D.C. 20202, or to the HEGIS coordinator, if there is a HEGIS coordinator in your State.

3. NAME AND MAILING ADDRESS OF INSTITUTION OR CAMPUS COVERED BY THIS REPORT *(include city, State, and ZIP code)*

4. NAME AND TITLE OF RESPONDENT

5. TELEPHONE NUMBER OF RESPONDENT *(area code, local number, and extension)*

6. PLEASE NOTE THAT EACH INSTITUTION, BRANCH, CAMPUS OR OTHER ENTITY SEPARATELY CERTIFIED BY THE ACCREDITATION AND INSTITUTIONAL ELIGIBILITY UNIT OF THE U.S. OFFICE OF EDUCATION, WITH IT'S OWN **FICE** CODE, AND LISTED SEPARATELY IN THE **EDUCATION DIRECTORY - HIGHER EDUCATION**, SHOULD BE REPORTED ON A SEPARATE SURVEY FORM AND NOT INCLUDED OR COMBINED WITH ANY OTHER SUCH CERTIFIED UNIT. BRANCHES, CAMPUSES, AND OTHER ORGANIZATIONAL ENTITIES NOT SEPARATELY CERTIFIED SHOULD BE INCLUDED WITH THE APPROPRIATE INSTITUTION OR BRANCH REPORT. IF SUCH ARE INCLUDED IN THIS REPORT, PLEASE LIST THEM BELOW.

IF NOT APPLICABLE, CHECK HERE → ☐

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: (1) an institution having two or more campuses responsible to a central administration (which central administration may or may not be located on one of the administratively equal campuses) or (2) an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus (sometimes called the parent institution) is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis (i.e., has a relatively permanent administration), which offers an organized program or programs of work of at least 2 years (as opposed to courses), and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative bod .

OE FORM 2300-2.3, 3/76 PREVIOUS EDITIONS OF THIS FORM ARE OBSOLETE.

VOLUNTARY VERSUS REQUIRED REPORTING

This survey constitutes an integral part of the comprehensive system of statistics on higher education collected by the National Center for Education Statistics *(NCES)* as part of the Higher Education General Information Survey *(HEGIS)*.

In recent years, for the purpose of enforcing compliance with Federal regulations implementing civil rights laws applicable to institutions of higher education, the Office for Civil Rights *(OCR)* has been collecting similar enrollment data on a mandatory basis.

In order to lighten the burden on reporting institutions by eliminating the considerable duplication of effort in reporting enrollment data to two separate agencies, the two surveys have been combined into this single questionnaire and integrated into the HEGIS program for 1976.

Completion of this questionnaire is mandatory for all institutions of higher education which receive, are applicants for, or expect to be applicants for Federal financial assistance as defined in the Department of Health, Education and Welfare *(HEW)* regulation implementing Title VI *(45 CFR 80.13)*, or as defined in any HEW regulation implementing Title IX. *(See also the Instructions for completing this questionnaire.)*

Those institutions to which the regulations **do not apply** are not required to complete this questionnaire. However, it is hoped that institutions not subject to these provisions will voluntarily complete the entire survey--or at least the Summary page--in order that the data may represent the entire universe of higher education. **As a minimum** NCES requests that institutions complete columns 13 through 16 on the Summary page in order to enable NCES to continue to provide basic enrollment data serving the needs and interests of the higher education community.

INSTRUCTIONS AND DEFINITIONS

NOTE. The card that forms the back cover of this report is for the convenience of respondents in providing preliminary data for a pre-publication release. The bottom half of the card is a self-mailer that can be detached without loosening the pages of the report.

GENERAL INSTRUCTIONS

Proofread the completed report before returning it to the National Center for Education Statistics.

This report should include only college-level students taking work creditable toward a bachelor's or higher degree or some other formal recognition below the baccalaureate.

If exact counts are lacking for a particular category of students that should be reported, include an estimate for that group.

Do NOT fill out separate forms for extension centers. Only campuses with their own FICE code numbers should be reported on separate questionnaires. Extension students should be reported on the form for the main campus.

Do NOT include in this report:

(a) Students in noncredit adult education courses.

(b) Students taking courses at home by mail, radio, or television.

(c) Students enrolled only for "short courses."

(d) Auditors.

(e) Students studying abroad if their enrollment at the reporting institution is only an administrative record and the fee is only nominal.

(f) Students in any branch campus or extension center in a foreign country.

(g) High school students taking college courses.

(h) Students known to be enrolled concurrently at another college or university, if the latter will report their enrollment *(to avoid double-counting)*. Normally, the institution that will eventually grant the degree should report the student's enrollment.

NOTE. No matter what the calendar system, report on this questionnaire only those students enrolled and only those credit-hours being earned during the FALL TERM.

If you need CLARIFICATION of any item on the questionnaire that pertains to fall enrollment, please call the Survey Director, Mr. George H. Wade, NCES, (202) 245-8392, in Washington, D.C. 20202. Any questions concerning the racial/ethnic categories or major fields of study should be directed to Mrs. Rose Brock, Office for Civil Rights, (202) 245-1788, in Washington, D.C. 20201.

MAJOR FIELDS OF STUDY AND CORRESPONDING MAJOR FIELD CODES.

The listing below identifies selected categories of major fields of study, and their corresponding codes. These were taken directly from the **HEGIS Taxonomy of Instructional Programs in Higher Education** and aggregated into the fields listed. The field name and corresponding code number have been preprinted in the upper left-hand corner of each page. If your institution has no students enrolled in any of the designated fields, check the box as indicated.

0100	Agriculture and Natural Resources
0200	Architecture and Environmental Design
0400	Biological Sciences
0500	Business and Management
0900	Engineering
1204	Dentistry
1206	Medicine
1218	Veterinary Medicine
1400	Law
1900	Physical Sciences
9000	All other *(fields not included above and undecided/undeclared)*
9999	Summary *(total enrollment)*. In addition to separate reports for each of the major fields or sub-fields listed above, complete the Summary report which aggregates the enrollment data on the individual field reports.

Columns 15 and 16 will be completed ONLY for the Summary report. Individual reports will NOT show data in columns 15 and 16.

FILING INSTRUCTIONS – COMPLIANCE REQUIREMENTS.

Title VI of the Civil Rights Act of 1964 requires that recipients of Federal financial assistance offer their benefits and services without regard to race, color, or national origin. Title IX of the Education Amendments of 1972 requires that the benefits and services of federally assisted educational programs and activities be offered, with certain exceptions, nondiscriminatorily on the basis of sex. This report is one indicator utilized by the Office for Civil Rights in carrying out its responsibilities to verify compliance with Title VI and Title IX. Also applicable are Section 799-A, Part H, Title VII and Section 845, Part C, Title VIII of the Public Health Service Act of 1972.

This report is to be filed by all institutions of higher education which receive, are applicants for, or expect to be applicants for Federal financial assistance as defined in the Department of Health, Education, and Welfare Regulation implementing Title VI *(45 CFR 80.13)*, or as defined in any Department of Health, Education, and Welfare Regulation implementing Title IX. If your institution does not fall into any of these categories, please inform us of this fact.

Section 80.6(b) of the Regulation implementing Title VI, set forth below, and similar provisions of the Title VI Regulations of other Federal agencies, authorize collection of this information:

80.6 Compliance information
(b) Compliance reports***

> Each recipient shall keep such records and submit to the responsible Department official or his designee timely, complete and accurate compliance reports at such times, and in such form and containing such information, as the responsible Department official or his designee may determine to be necessary to enable him to ascertain whether the recipient has complied or is complying with this part. For example, recipients should have available for the Department racial and ethnic data showing the extent to which members of minority groups are beneficiaries of and participants in federally-assisted programs. In the case of any program under which a primary recipient extends Federal financial assistance to any other recipient, such other recipient shall also submit such compliance reports to the primary recipient as may be necessary to enable the primary recipient to carry out its obligations under this part.

Each institution of higher education, as well as each separately certified branch campus *(with its own FICE code number)* that is subject to the HEW civil rights regulations cited above is required to complete a separate compliance report for certain selected major fields *(listed below)* as indicated in the upper left-hand corner of each page.

RACIAL/ETHNIC CATEGORIES.

The following five racial/ethnic categories are utilized in the survey:

Black Non-Hispanic
American Indian or Alaskan Native
Asian or Pacific Islander
Hispanic
White Non-Hispanic

In addition, non-resident aliens, i.e., those members of the aforementioned groups who have not been admitted to the United States for permanent residence, should be separately identified as a sixth category; the non-resident aliens are not separately requested by racial/ethnic group, but only in totals.

The definitions for these categories are:

Non-resident alien. A person who is not a citizen of the United States and who is in this country on a temporary basis and does not have the right to remain indefinitely. **Resident aliens, non-citizens who have been lawfully admitted for permanent residence** *(and who hold a "green card" Form I-151)*, are to be reported in the appropriate racial/ethnic categories along with United States citizens. Nonresident aliens are to be reported separately, in the columns provided, rather than in any of the five racial/ethnic categories which follow.

Black, non-Hispanic. A person having origins in any of the black racial groups *(except those of Hispanic origin)*.

American Indian or Alaskan Native. A person having origins in any of the original peoples of North America.

Asian or Pacific Islander. A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Pacific Islands. This area includes, for example, China, Japan, Korea, the Philippine Islands, and Samoa.

Hispanic. A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

White, non-Hispanic. A person having origins in any of the original peoples of Europe, North Africa, the Middle East or the Indian subcontinent *(except those of Hispanic origin)*.

Racial/ethnic designations as used in this survey do not denote scientific definitions of anthropological origins. For the purpose of this report, a student may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging. However, no person may be counted in more than one racial/ethnic group.

The manner of collecting the racial/ethnic information is left to the discretion of the institution provided that the system which is established results in reasonably accurate data. One acceptable method is a properly controlled system of post-enrollment self-identification by students. If a self-identification method is utilized, a verification procedure to ascertain the completeness and accuracy of student submissions should also be employed where feasible. In order to provide reasonably accurate data, the institution may require students to complete a questionnaire and/or identify themselves by name or otherwise when providing information. The fact that the information is being gathered to comply with Title VI of the Civil Rights Act of 1964 and Title IX of the Education Amendments of 1972 may be disseminated in the manner and to the extent that the administration deems appropriate.

DEFINITIONS

UNDERGRADUATES. Students enrolled in a 4- or 5-year bachelor's degree program, in an associate degree program, or in a vocational or technical program that is normally terminal and results in formal recognition below the baccalaureate.

CLASS LEVEL. Whether first-year, second-year, etc., should be determined in a logical, consistent, and identifiable way. Usually, a student's class level would be based on the proportion of total requirements he has obtained toward the completion of the degree program in which he is enrolled, according to the number of years normally required to obtain them.

FIRST-TIME FRESHMEN. Entering freshmen who have not previously attended ANY college. Include **students enrolled in the fall term** who attended college for the first time in the summer of 1976. Also include students who entered with advanced standing *(college credits earned before graduation from high school)* at the **freshman** level.

OTHER FIRST-YEAR. First-year students who entered the institution before the summer of 1976.

UNCLASSIFIED STUDENTS. Not candidates for a degree or other formal award, although taking courses in regular classes with other students.

UNDERGRADUATE LEVEL. Includes but is not limited to undergraduates who cannot be classified by class standing; for example, new transfer students. Also included are students who already have bachelor's degrees or awards below the baccalaureate but are taking courses at the same level or lower. Included also are "special students" and teachers taking additional undergraduate courses for certification.

POSTBACCALAUREATE LEVEL. Includes but is not limited to "special" and other students taking first-professional or graduate courses but who are not working toward a degree.

FIRST-PROFESSIONAL STUDENTS. Students enrolled in a professional school or program which required at least 2 academic years of college work for entrance and a total of at least 6 years for a degree. Report only students in those first-professional degree programs in the field of medicine, law, and theology specified in Part A of OE Form 2300-2.1, Degrees and Other Formal Awards Conferred. Students in programs requiring only 4 or 5 years beyond high school should be reported as undergraduates.

GRADUATE STUDENTS. Students who hold the bachelor's or first-professional degree, or equivalent, and are working toward a master's or doctor's degree.

FIRST-YEAR. Graduate students who have completed less than one full year of required graduate study.

BEYOND THE FIRST YEAR. All graduate students who have completed at least one full year of graduate study toward a master's or doctor's degree.

FULL-TIME STUDENTS. Those whose academic load-coursework or other required activity is at least 75% of the normal full-time load.

NORMAL FULL-TIME LOAD. Usually determined by dividing the total number of credits required for completing the program by the number of terms normally required to obtain them.

FULL-TIME-EQUIVALENT (FTE) ENROLLMENT OF PART-TIME STUDENTS. Convert part-time students *(lines 15-28)* into full-time equivalents by one of the following:

(1) Use a method already employed in your institution to compute FTE's for some other purpose.

(2) Sum the credit hours for part-time students and divide by the **normal full-time credit-hour load.** Note: Divide by the **normal, or average,** full-time load, not by the **minimum** full-time load. For most institutions, this will be 15 credit-hours (not 12).

(3) Assign a fractional value of full-time to each part-time student, appropriate to your institution, such as 1/4, 1/3, or 1/2. Remember that a student taking 3/4 *(75%)* or more of a normal full-time load should be classified as a full-time student.

NORMAL FULL-TIME CREDIT-HOUR LOAD (column 15). Usually determined by dividing the total number of credits *(lines 1-13)* required for completing the program by the number of terms normally required to obtain them. Do not confuse this with the **minimum** number of credit-hours required for a student to be classified full-time *(75% of a normal full-time load)*.

TOTAL CREDITS ENROLLED FOR (column 16). For each line on the form, the total number of credit-hours accounted for by the total *(headcount)* number of students reported in columns 13 and 14. This count should be determined by the level of the student NOT by the level of the course he is taking.

OE FORM 2300-2.3, 3/76 PREVIOUS EDITIONS OF THIS FORM ARE OBSOLETE.

Each fall since 1972, the National Center for Education Statistics has issued early estimates of enrollment in higher education consisting of tabulations of selected items of data for all institutions in the fall enrollment survey. These estimates have been extremely useful for planners within the institutions, State legislatures, Congress, and other interested persons in the higher education community. We ask that you submit the same information again for fall 1976, using this card to transmit the data to the National Center for Education Statistics.

Please complete every item on this card. Refer to the INSTRUCTIONS for definitions and other needed information. Provide final data when possible. Otherwise, if you find it necessary to make estimates, please make a notation to that effect on the card.

When completed, detach the self-addressed, postage-paid half of the card and mail it. Retain the other half for your files.
